Introduction

Every 10 years, Washington redraws the boundaries for Congressional and legislative districts in order to account for population shifts in the last decade and ensure that each district has an approximately equal number of residents.

A five-member independent, bipartisan commission is appointed for this process, and its work uses data from the federal decennial census as directed by Article II, section 43 of the Washington Constitution and RCW 44.05. Once the commission has completed its work, the legislature has 30 days during any regular or special session to amend the commission's plan by no more than 2 percent of the population of any legislative or Congressional district with a two-thirds majority vote in both chambers [see RCW 44.05.100(2)].

On February 8, 2022, the Senate passed House Concurrent Resolution (HCR) 4407, amending the redistricting plan. The final plan, as amended, will be in force until the next decennial census or until a modified plan takes effect as provided in RCW 44.05.120(6).

This map book provides some granular details about the final maps, district demographics, and splits across counties and cities. Unless otherwise indicated, all population data in this map book below the state level reflects 2020 Census data adjusted to relocate residents in state custody to their last known address as directed by RCW 44.05.140.

About the 2020 Census

According to the 2020 Census, the population in Washington state grew 14.6 percent (or 980,741 persons) to 7,705,281 persons over the past decade. The population of all counties in Washington grew except for Columbia and Ferry counties, which had small decreases in population. The five counties with the highest percentage growth in population are Franklin (23.8 percent), Clark (18.3 percent), Benton (18.1 percent), King (17.5 percent), and Thurston (16.9 percent). The largest counties with populations of over 500,000 are King (2,269,675), Pierce (921,130), Snohomish (827,957), Spokane (539,339), and Clark (503,311).

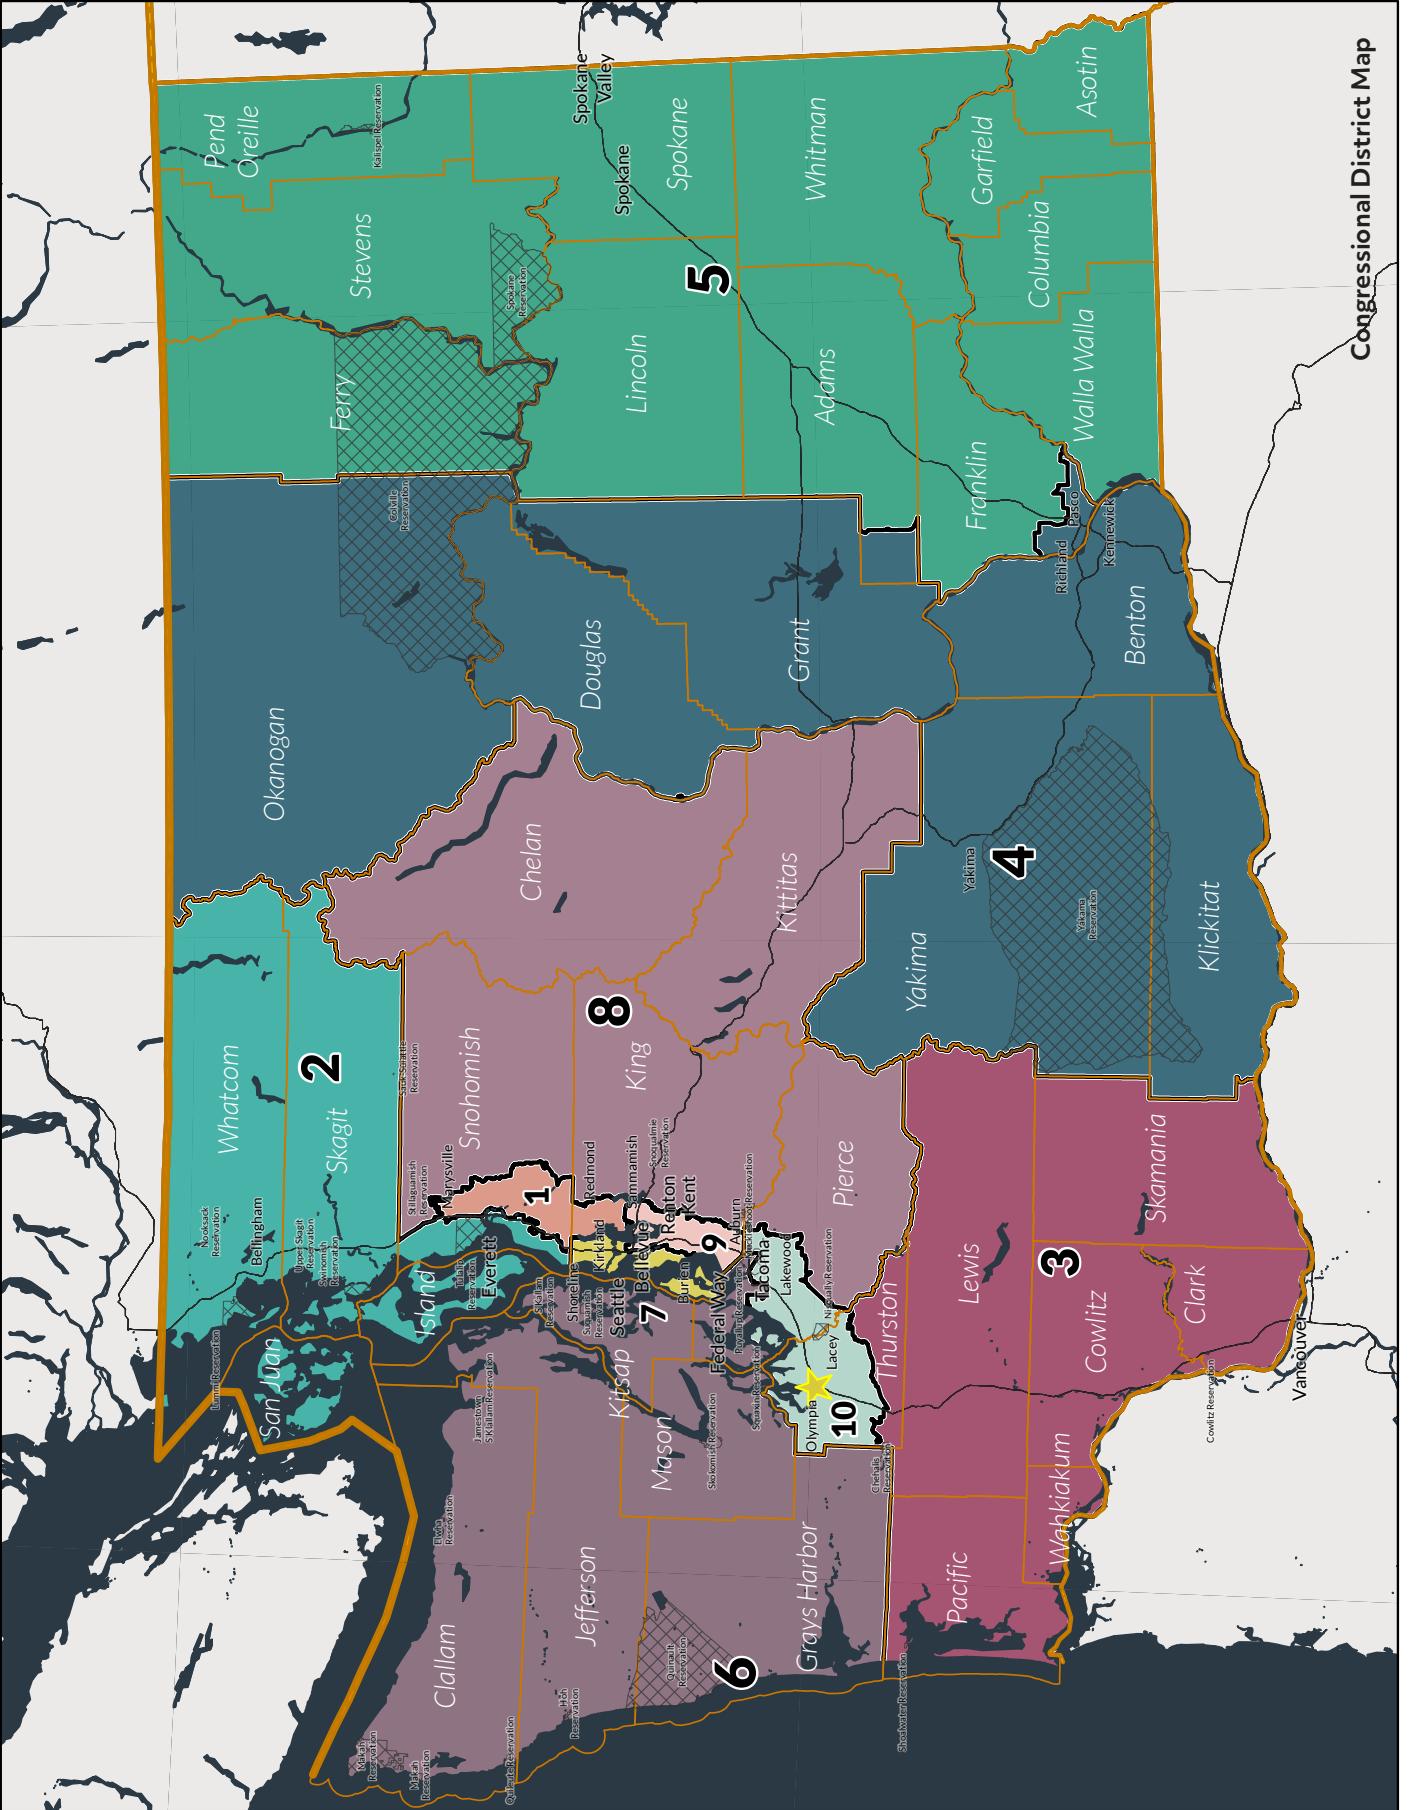

A full 78.2 percent of Washington's population (or 6,024,689 persons) is over the age of 18. The five counties with the largest proportion of persons under 18 are Adams (33.9 percent), Franklin (31.5 percent), Grant (28.5 percent), Yakima (28.2 percent), and Benton (26.2 percent).

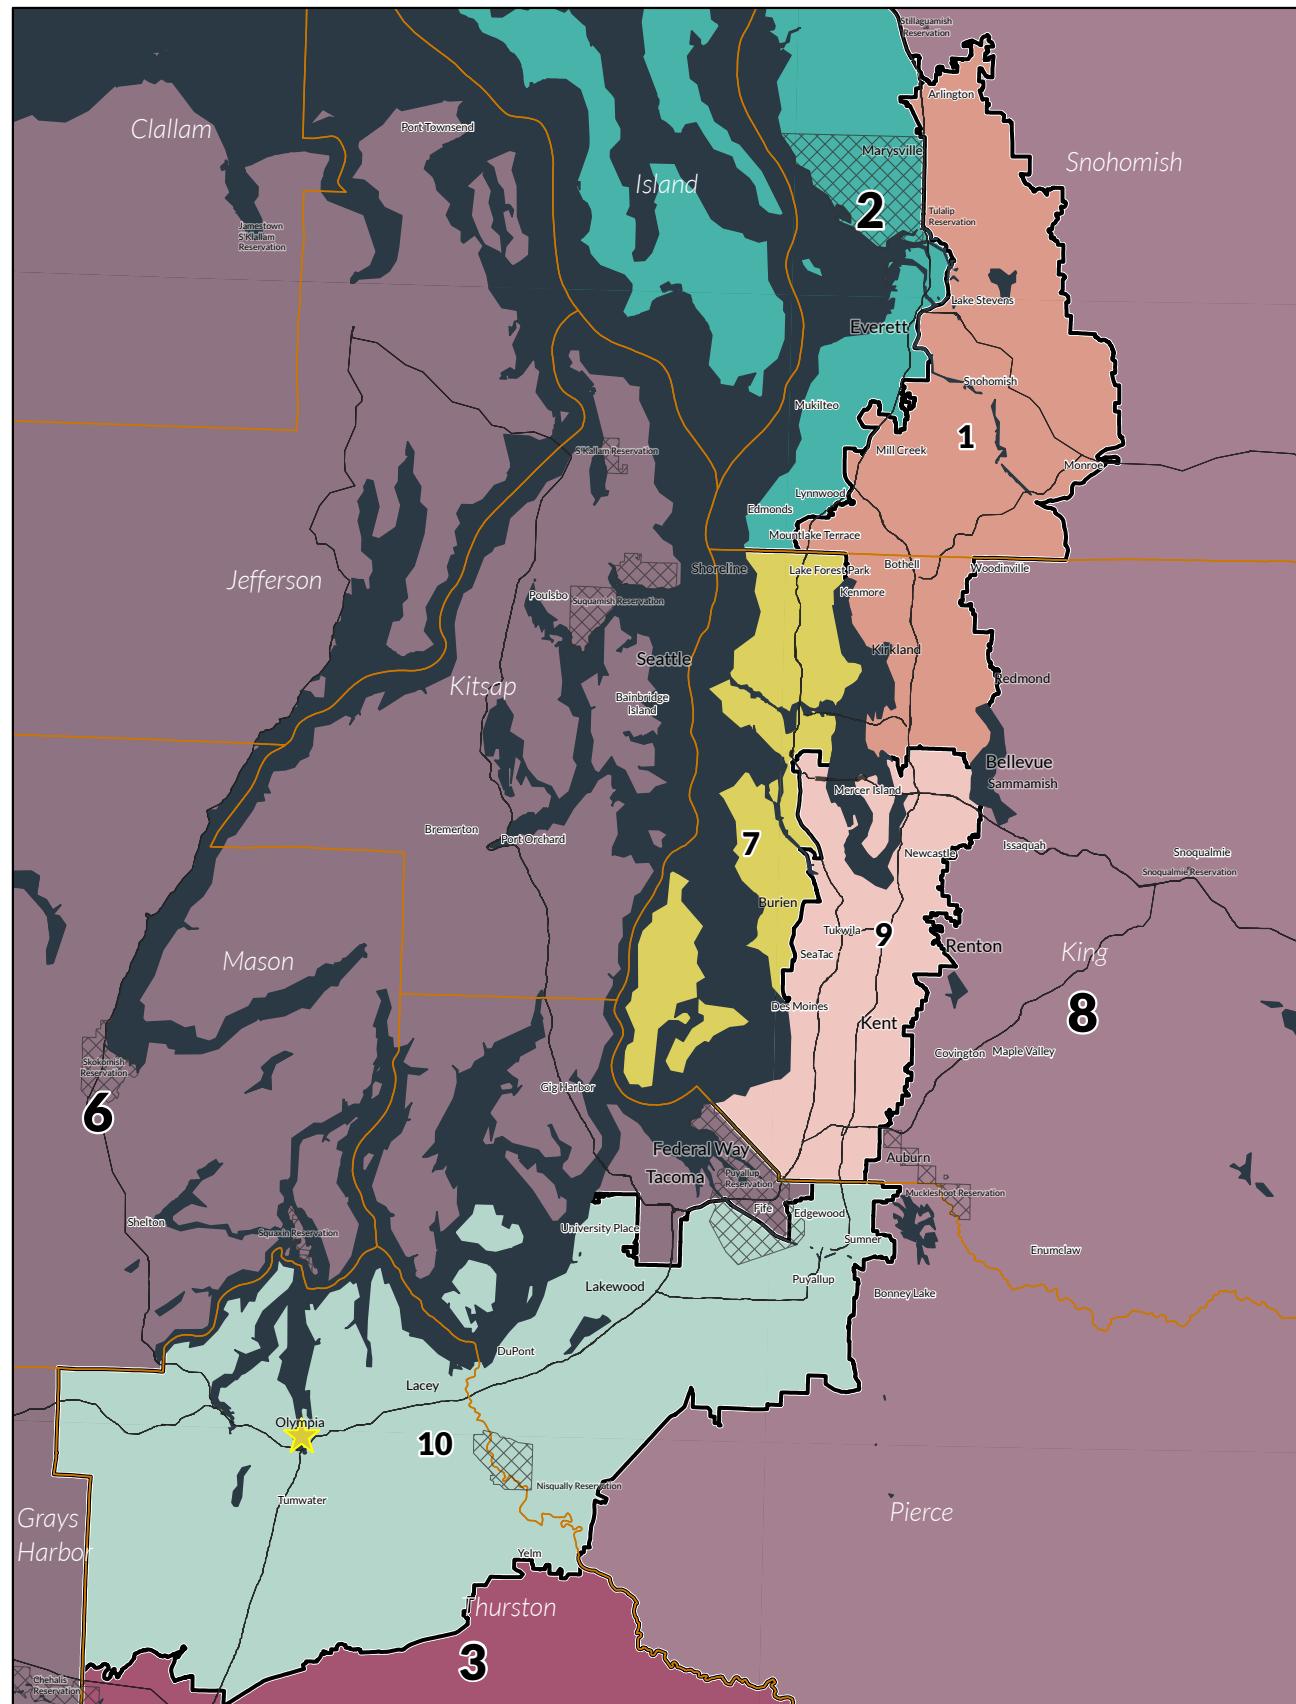

Washington's total minority population, defined as all persons of Hispanic or Latino origin plus non-Hispanic non-White races, now comprises 36.2 percent of the state's population. A full demographic breakdown for race and ethnicity in Washington and changes over time is represented in the chart below.

Demographic Breakdown by Race & Ethnicity

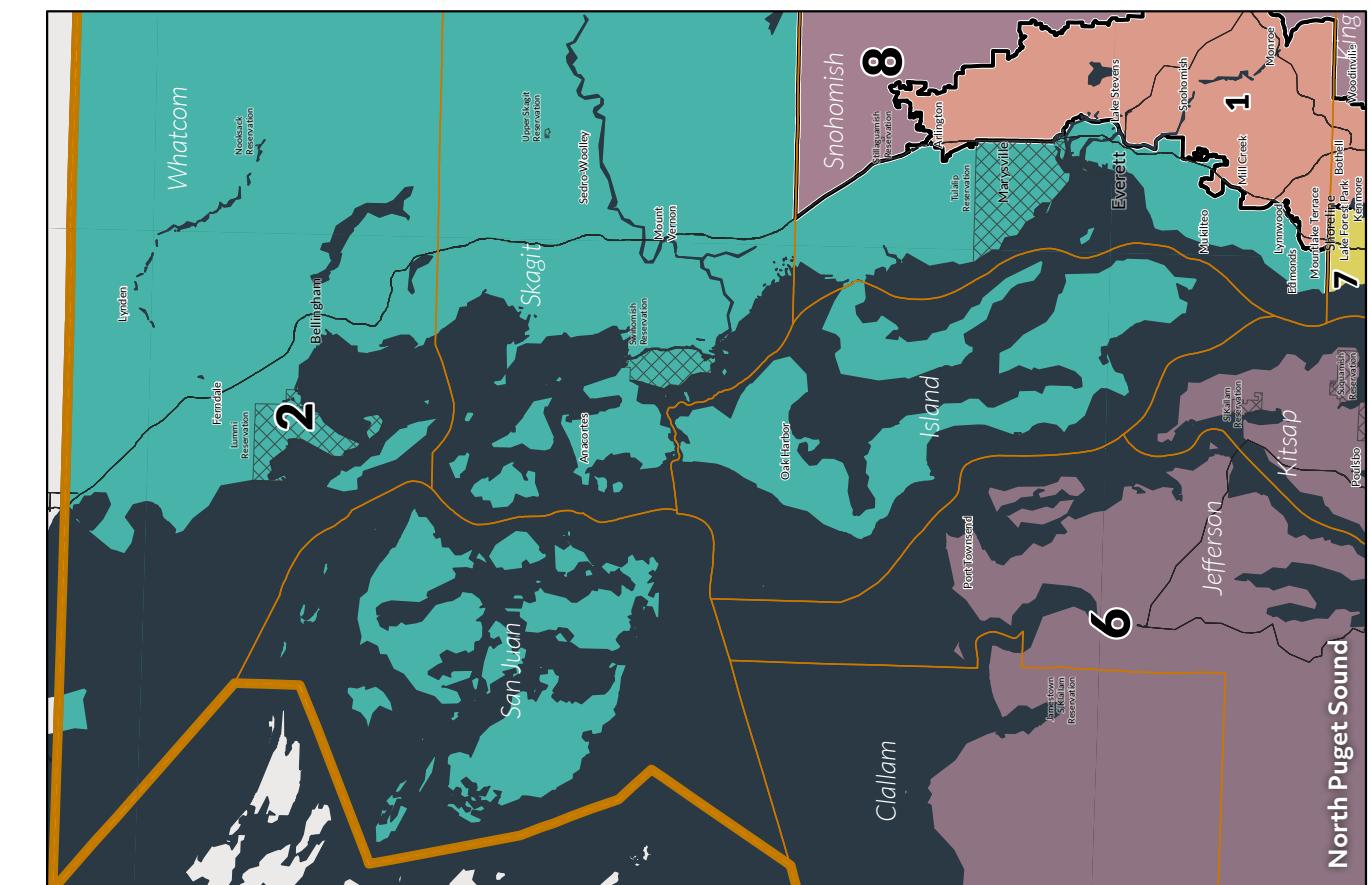

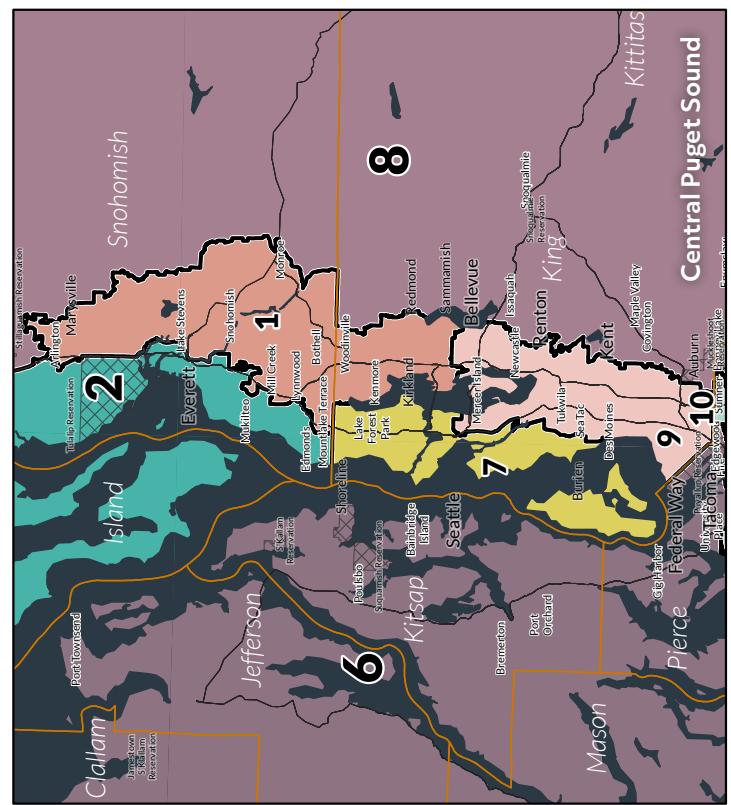

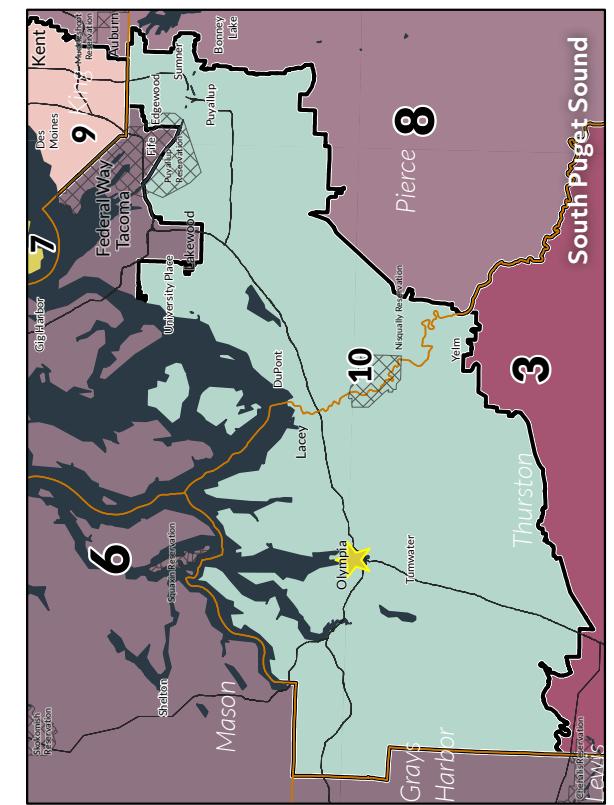

ETHNICITY	2020 Census	% of Total Population	2010 Census	Percentage Change
Hispanic or Latino	1,059,213	13.7%	755,790	40.1%
